

The Charter School [2021-22]

Coding, Robotics & AI Workshop [Grades 6-10] - July 12 & 13

"Coding is today's language of creativity. All our children deserve a chance to become creators instead of consumers of computer science." ~ Maria Klawe, President of Harvey Mudd College, Computer Scientist & STEM Advocate

We are pleased to share information regarding a Coding, Robotics & AI Workshop being organised for the Grade 6-10 students of The Charter School.

This is a two days program specially designed for school students of class 6th to 10th to create a strong foundation in Robotics & AI. We believe this program will be a good exposure to these emerging fields. They will not just be learning but will be engaging in building multiple AI and Robotics related projects.

Workshop Dates Selected for The Charter School: July 12 (Monday) and July 13 (Tuesday)
Timings: 3 pm - 4:30 pm

Please click on the link below to learn more about the program. To enrol your child, please select the batch displayed on the page and click on the 'Enrol Now' option.
